EDUCATION

Abdullah Gül UNIVERSITY **Kayseri, Turkey**
Bachelor of Engineering, Computer Engineering. 2021 - Present

Relevant Coursework: Art of Computing, Exploring Computer Engineering, Object Oriented Programing, Data structures and algorithms, Mobile programming, Digital design, Mathematical modeling and algorithm thinking, Database management system, Discrete mathematic, Software engineering, Analysis of algorithms, Operating System, Computer Organization, Probability and Statistics, System Programming, Computer Networks, Formal languages and automata theory, Embedded systems, Introduction to AI, Internet of Things, Data Privacy, Introduction to Cryptography

WORK EXPERIENCE

Kayseri Elektrik Perakende Satış A.Ş. (KEPSAŞ) **Kayseri, Turkey**
Intern July 2026 - August 2026

- Completed a 30-day summer internship (COMP451)
- Analyzed energy market structures, electricity distribution tariffs, and solar energy integration models.
- Worked on energy offset calculations and market clearing prices for the K2 EnerjiPro application.

Microsoft Turkey **Remote**
Intern - AI Innovators Summer Program Summer 2026

- Selected for and successfully completed the AI Innovators Summer Program, focusing on AI development and ecosystem integration.
- Developed a Stock Price Prediction project using PyTorch under the mentorship of Microsoft professionals (Barbaros Gunay).
- Designed and implemented deep learning models, specifically LSTM (Long Short-Term Memory) and GRU (Gated Recurrent Unit), for time-series forecasting.
- Built an end-to-end machine learning pipeline including data preprocessing, model training, evaluation, and configuration management.
- Prepared technical presentations and video scripts to communicate project methodologies and results effectively.

B&B Bilişim **Kayseri, Turkey**
Intern June 2025 – August 2025

- Contributed to computer vision projects and image processing tasks.
- Improved proficiency in C# and HTML.
- Gained experience in ASP.NET Core MVC development.
- Collaborated with a software development team, enhancing teamwork and problem-solving skills.

Prospective Student Coordination Office, Abdullah Gül University **Kayseri, Turkey**
Part-time Working Student July 2024 - August 2024

- Promoted the university by connecting with prospective students through personalized communication.
- Kept detailed records of student interactions, noting their cities of origin and the sequence of communication for thorough analysis.

PROJECT EXPERIENCE

Researcher - AGU Scientific Research Projects (BAP) **Kayseri, Turkey**
Collaborative Autonomous Reconnaissance and Kamikaze Scenarios with AI and IoT-Enabled Fixed-Wing UAVs
January 2026- Present

- **Autonomous Mission Execution:** Developing a hybrid image processing pipeline (OpenCV & YOLO) for real-time target detection and coordinating a two-UAV system (Recon & Kamikaze) for autonomous mission delivery.
- **IoFT & Communication:** Implementing a "Flying Things (IoFT)" network using LoRa and GSM to enable low-latency (<150ms) inter-UAV data sharing and remote cloud monitoring.

Yapay Zeka Yıldızları (Habitat Association & Vodafone Foundation) **Ankara, Turkey**
Volunteer Trainer *November 2025*

- Participated in the training of trainers program to deliver AI literacy and Python coding workshops to middle and high school students, focusing on transitioning them from consumers to producers of AI-driven projects.

Power Up With Us (Empower Me - Youth Program) **Kayseri, Turkey**
Participant *October 2025*

- international program supported by The Starbucks Foundation and Alshaya Group to enhance 21st-century digital competencies, entrepreneurship skills, and career planning for social and economic resilience.

Researcher – TÜBİTAK 2209-A Undergraduate Project **Kayseri, Turkey**
GNSS and Image Processing with Fixed-Wing UAV Follow-Up April 2025 – April 2026

- Awarded funding under TUBITAK 2209-A Research Support Program.
- Developing a system to detect, track, and predict enemy UAVs by fusing GNSS and real-time image data.

SHE++ - Certificated **Kayseri, Turkey**
Team Member November 2023 – May 2024

- During the SHE++ project, focusing on empowering female high school students by introducing them to engineering and technology through face-to-face workshops and mentorship programs.
- Organized and delivered educational sessions that combined technical skills in programming and engineering tools in addition to psychological support to increase their confidence and overcome gender stereotypes in STEM fields.

Think Future, Take Action! Sustainable Development Goals for Youth II - Certificated **Kayseri, Turkey**
Participant October 2023

- Emphasized the importance of Sustainable Development Goals in addition to field visits - Supported by Ministry of Youth and Sports

COMPETITIONS

TEKNOFEST 2025 – Hepsiburada AI-Powered Address Resolution Hackathon **Kayseri, Turkey**
Sümertech team August 2025

- Participated in developing AI-based solutions for address resolution tasks.
- Worked on natural language processing and data preprocessing techniques.

Software Team Lead – AGU Teknofest UAV Team **Kayseri, Turkey**
Teknofest Fighter UAV Competition – Tulpar Team Jan 2024 – Jan 2025

- Contributing to the development of an autonomous fixed-wing UAV for the Teknofest International UAV Competition.
- Supporting a small team of student developers in areas including computer vision, simulation, communication, and interface development.
- Helping coordinate tasks and timelines within the team and assisting in planning the integration of different software components.

Technical Contributions:

- Worked on integrating YOLOv8 with GOTURN + DeepSORT to enable real-time object tracking from video inputs.
- Participated in UAV behaviour testing in **PX4 + Gazebo Classic** using ROS 2 for flight simulation.
- Assisted in setting up simple communication protocols for ground control interactions.
- Helped collect and evaluate tracking accuracy metrics using test videos and manually labeled ground truth data.

PERSONAL PROJECTS

Cepteservis – Mobile Service Marketplace App **Kayseri, Turkey**
Technologies: Java, Android Studio, Firebase (Auth & Realtime DB) September 2023 - February 2024

- Developed a mobile application enabling users to find and request local repair and maintenance services.
- Integrated user authentication, real-time service requests, and a structured category-based listing system.
- Implemented a responsive UI and service tracking module to improve user experience.

Worship Tracking System – Religious Habit Tracker App **Kayseri, Turkey**
Technologies: Flutter, Dart, MySQL, Firebase Cloud Messaging March 2025- June 2025

- Designed and developed a prayer tracking system tailored for individual users to monitor their worship habits.
- Features include real-time reminders, missed prayer logging, and a calendar-based historical view.
- Integrated notification system using FCM and developed a personalized feedback system to promote user engagement.

3D CHLOthes - AI-Powered Virtual Fitting Room **Kayseri, Turkey**
Technologies: Python, FastAPI, PostgreSQL, Celery, Redis, Docker, AWS S3, Hugging Face (IDM-VTON)
March 2026

- Designed and developed an end-to-end AI-powered virtual try-on web application, enabling users to digitize clothing and simulate try-ons on 3D avatars.
- Architected a scalable, asynchronous Client-Server infrastructure using Celery and Redis to process heavy Generative AI tasks without blocking the user interface.
- Integrated external AI APIs (Tripo3D for image-to-3D generation, Hugging Face IDM-VTON for garment transfer) and managed cloud file storage via AWS S3.
- Implemented a "Graceful Degradation" (Fault Tolerance) mechanism to ensure the system remains stable and provides fallback mockups during high API traffic or server timeouts.

VOLUNTEER EXPERIENCE

European Solidarity Corps (ESC) **Râmnicu Sărat & Bucharest, Romania**
Volunteer August 2026 – October 2026

- Engaged in a two-month international volunteer project, collaborating on community activities and local project initiatives.

Abdullah Gül University Huawei Student Developers **Kayseri, Turkey**
Volunteer October 2025 – December 2025

- Led the sponsorship unit by managing partner relations and securing strategic resources for technology events and community growth.

AGU Global Accessibility and Awareness Club (GAA) **Kayseri, Turkey**
Inspection Team Coordinator January 2024 – May 2024

- GAA's inspection team coordinator, whose goal is to modify how universal policies operate and conduct accessible activities in order to impact attitudes toward people, animals, and values, first at Abdullah Gül University, then in Kayseri, Turkey, then globally

Abdullah Gül University Genç Kızılay Club **Kayseri, Turkey**
Volunteer Student October 2022 – June 2023

- worked as a volunteer stand attendant in a blood donation campaign.
- I volunteered to plant trees at the tree planting event. I fed stray animals as a volunteer.

SKILLS

Technical Skills:

- Languages: Python, Java, C, C#, HTML
- Tools/Frameworks: OpenCV, YOLO, DeepSORT, ROS, Gazebo, Git, ASP.NET Core MVC, RT-DETR
- Platforms: Linux, Windows
- Others: Microsoft Office, Canva

Soft Skills:
Teamwork, Communication, Time Management, Leadership, Emotional Intelligence

Language:

- Turkish (Native)
- English (B2 – Intermediate Professional Proficiency)
- German (A1)

CERTIFICATES

Fundamental Python and Image Processing Course **May 2024**
United Latino Students Association

- Learned the Phyton programming and Image Processing

Abdullah Gül University Youth Studies Application and Research Center **August 2024**
SHE++ Project Manager

- During the SHE++ project, focusing on empowering female high school students by introducing them to engineering and technology through face-to-face workshops and mentorship programs.
- Organized and delivered educational sessions that combined technical skills in programming and engineering tools in addition to psychological support to increase their confidence and overcome gender stereotypes in STEM fields.

Canva Career Summit'24 **March 2024**
Etkin Kampüs

- Workshops about professional CV designing, efficient presentations and English learning by AI tools

19th and 20th Young Academy **December 2024**
Bilkent University Operational Research Club

- Came together with more than 1000 students from various universities and met with leading names in many fields from politics to business, art to sports.

Abdullah Gül University

- SDG Speaking Club Project **November 2023**
- Think Future, Take Action! Sustainable Development Goals for Youth II **October 2023**
